## WORK EXPERIENCE

Freelance Frontend Developer

2022 – Present

Developed responsive and user-friendly web applications using React and JavaScript.

Collaborated with clients to design and implement custom solutions, ensuring high performance and scalability.

Integrated RESTful APIs and managed state using Redux and Context API.

Optimized websites for speed and cross-browser compatibility.

MajoMaken TeamWork | Frontend Developer Intern 2023

Contributed to the development of a parking automation application using React and Android Studio.

Improved user interfaces and implemented new features based on client feedback.

Worked with MySQL for database management and integration.

INGOODE COMPANY | Volunteer 2021

Participated in volunteer initiatives to distribute educational materials to low-income schools.

## EDUCATION

National Open and Distance University (UNAD)

Electronic Engineering | Ongoing

Universidad Sergio Arboleda

Data Analysis Programming | Graduated 2022

Universidad Autónoma de Bucaramanga

Labor Technician in Programming | Graduated 2023

## PROJECTS

Parking Automation App

- Developed a mobile application for parking management using React Native and MySQL.
- Implemented features such as ticket generation, payment integration, and real-time updates.

E-commerce Website

- Built a full-stack e-commerce platform using React, Node.js, and MongoDB.
- Designed a responsive UI with Tailwind CSS and integrated payment gateways.

Personal Portfolio Website

- Created a personal portfolio website to showcase projects and skills using React and Vite.
- Deployed the site using Netlify for continuous integration.
